Dear Parents/Guardians,

The school has recently purchased Mathletics which is an online resource for your child to help them with their learning of maths. This means your child has take home access to Mathletics with their existing username and password. The software is compatible with a range of devices such as computers (Mac & PC), tablets and smartphones. The program features a range of mathematic activities which are based on the national curriculum and are set at an appropriate level for your child.

Practising a new skill is an important aspect of learning and your child’s teacher may assign Mathletics homework to complete at home. Could you please indicate whether your have internet access at home so classroom teachers can plan for your child. Your child will still have access to Mathletics at school.

Below you will find some details which will help you get onto Mathletics.

Jodi Park
Principal

Name: __________________________
Grade: ____________

☐ I have internet access at home through a device (computer, tablet or smartphone)
